Adult Internal Medicine											
Non-rebreather mask		Α									
Spirometry & Peak Flow Measurement		A									
Nebulisation therapy	+	A									
Arterial blood sampling	+	A									
Glasgow Coma Scale		A									
Urethral catheterisation on male											
		A									
Initiate insulin therapy	3	A									
Facilitate a family meeting for discharge planning	4	A									
Conduct a patient focused medication review prior to discharge	3	A									
Anaesthetics											
IV access		Α									
Blood transfusion		A									
Oxygen saturation monitoring		A									
Digital nerve block		A									
Conduct pain management review for chronic pain patient	3	A									
Oropharyngeal airway	5	B									
Nasopharyngeal airway		B									
Laryngeal mask	-	B								-	
Endotracheal intubation		B									
Bag/mask ventilation	-	B									
External cardiac massage		B									
Defibrillation		B									
Synchronised DC cardioversion		B									
Adult sedation	2 /2	B			-						
Rapid sequence induction	2/3	C									
Child & Adolescent											
Use of respiratory med delivery devices	3	A									
Use of spacer devices	3	A									
Nebulisation therapy	3	Ā									
Local anaesthesia		A									
Repair of superficial skin laceration	3	A									
Venous blood sampling		A									
Conduct a developmental assessment	1	A									
Write an asthma management plan	3	A									
HEADSS assessment	5										
	1	A									
Endotracheal intubation		B									
Intravenous access	1	В									
Nontal Hoalth											
Mental Health	1					1			1		

Suicide risk assessment and safety planning	1/4	Α					
Mini-mental state examination	1	Α					
Psychiatric mental state examination and formulation	1	А					

Assess a patient experiencing a mental health emergency	1/2	Δ						
Assess a patient experiencing a mental nearth emergency	172	A						
Musculoskeletal medicine								
Soft tissue injury strapping		Α						
Fracture splinting		Α						
Fracture plaster cast	3	Α						
Reduction of fracture	3	С						
				 	•			
Obstetrics & Women's Health			_	 		•		
Urethral catheterisation in female		Α						
Perform urine pregnancy test and manage the finding	1	A						
Perform foetal heart sound detection	_	A						
Fundal height assessment	_	A						
Conduct ante-natal visit	1/2	A						
Conduct post-natal visit	1	Α						
Conduct well baby check	1	A						
Manage post natal mental health issues	1	Α						
Manage shoulder dystocia		В						
Manage normal delivery	1/3/4	В						
Ophthalmology								
Visual acuity & field assessment	1	A						
Use ophthalmoscope		A						
Topical anaesthesia of cornea		A						
Staining of cornea with Fluorescein		A						
Removal of corneal foreign body	+	Δ						
Removal of concal foreign body								
Palliative Care								
Palliative Care Nasogastric tube insertion		Α						1
Palliative Care Nasogastric tube insertion Complete advanced care plan	1	A A						
Nasogastric tube insertion	1	A A						
Nasogastric tube insertion	1	A A						
Nasogastric tube insertion Complete advanced care plan	1	AA						
Nasogastric tube insertion Complete advanced care plan Surgery	1	A A A A
